Good afternoon,

I wanted to give you all a quick update with documentation and more formal follow-up to come, most likely on Monday. It is my understanding from the Board that the following actions were taken earlier today:

1. Lead Education materials have been mailed to all Board customers in satisfaction of paragraph B.10 from DHHR's Order and paragraph 34(e) of EPA's Order. The Board has requested verification from Infosend, the Board's printer and mass mailing service, and will provide that verification as soon as we can.
2. Notices and point of service filters were delivered to those customers with known elevated lead levels (identified by sampling) at the Bridge Street, Tyler Avenue and Stanley Avenue locations. (DHHR Order B.1 and EPA Order 34(b)).

Talk to you all soon,

Marc
